

Parking & Driveway Etiquette

Please be aware of the traffic pattern shown below. In particular, you should not travel, drop off athletes, or park in the area between the large Warren boathouse and the PIRC (Pittsford Indoor Rowing Center). Parking in front of the main entrance of the PIRC should be reserved for coaches only. The area in front of the smaller red boathouse bay doors must be cleared as well from parked cars. These areas may be blocked by cones, and are needed by the kids to maneuver boats into the boathouses.

Drive slowly in the direction of the arrows as you try to locate/drop off your athlete and find a parking spot. There are several small athletes that may not easily be seen as they are walking between cars and many kids ride their bikes. Athletes riding bikes are expected to wear helmets.

When leaving, remember to stop at the STOP sign at the bottom of the hill and wait for the car to exit at the top of the driveway. Do not pass cars that are waiting in line to leave.

Finally, there are NO left turns out of the driveway. Parents, please be role models and share this information with your child, especially if they are driving. The exit does not allow a good view of oncoming traffic and delays exiting the complex.

Pittsford Crew is hoping to have seasoned parents assist with the parking at the start of the season. Please exercise patience especially as our programs overlap with drop off and exiting times.
